

EARLY DETECTION

Your Best Answer to Breast Cancer

Do You Need and Qualify for a **FREE** Breast Health Screening?

Thanks to the generous donations of many community organizations and individuals to the Covenant HealthCare Foundation CARE fund, a **free one-day breast health screening** is being held at the Covenant Breast Health Center on September 10, 2011 for women who:

- Are age 40 or over
- Are uninsured or not covered for mammograms
- Have not had a mammogram for at least 12 months
- Have no current breast problems

American Cancer Society Statistics Show that:

- About 95 percent of new breast cancer cases occur in women over 40.
- One in eight women will be diagnosed with breast cancer in their lifetime.
- Regular screenings for breast cancer usually detect it at an early, more treatable stage.
- The five-year survival rate among early-stage cancer patients is 98 percent.

Don't Delay. Call Today.

Early signs of breast cancer are often revealed in a mammogram before other symptoms appear. If you meet these criteria, **Call the Covenant**

Breast Health Center today at 989.583.5020 to schedule a free clinical breast exam and digital mammogram from our experienced physicians and technologists. **Advance appointments are required. Space is limited.**

Spread the word about early detection to others you love – like your mother, sister, daughter and friends. It's one of the best answers to beating breast cancer.
