PRESS RELEASE

Some Off-Site Covenant Locations Experiencing Power Outages

October 20, 2011 11:50 a.m.

Due to inclement weather, Covenant HealthCare has experienced power outages at some off-site locations. Currently 600 Irving is closed and the Physician Office Building Lab (800 Irving) is not seeing patients. If you are a patient and need a lab drawn please visit other Covenant Laboratory locations.

The Physician Office Building (800 Cooper) has partial power. Patients please be advised to call ahead to make sure your physician's practice is seeing patients.

Other Covenant facilities without power include certain physician's practices in Saginaw Township, Saginaw Bay Internal Medicine and State Street MedExpress.

The main campus electricity is unaffected and continuing operations as usual.

Consumers Energy states full power should be restored by 4pm.
