Dr. Michael Schultz	Jan 11, 2:00-4:00 pm	Harrison Siderooms C&D

Order Required for Mammograms

As of January 1, 2018, the Covenant Breast Health Center will require either a written script or an electronic order for screening mammograms.

Physicians in our community have expressed concerns when receiving screening mammogram results on patients they have not recently seen. To be responsive to physician concerns, and to ensure the proper type of mammogram is performed, a written script or an electronic order will be required for all exams.

Please feel free to contact the Breast Health Center at 583.5130 if you have any questions or concerns.

Medication Auto Stop Policy

Based on HFAP requirements, Covenant's Medication Auto Stop policy requires that medications without a stop date be reviewed every 30 days. Starting December 14th, a new best practice alert (BPA) will fire to alert you when your patient has medication orders that need review. Once orders have been reviewed in Epic, they will not need to be reviewed for another 30 days. If you have any questions, contact Lindsay Simonetti, IT Manager, at 583.0467.
