DIAGNOSTIC RADIOLOGY (X-RAY) (25-35 min)

- Abdomen Flat & Upright
- Abdomen KUB
- Ankle (RT) (LT) (Bil)
- Bone Age Study
- Bone Length Study
- Bone Survey Metastatic
- Chest
 - PA-LAT
 - PA
 - Other _____
- Clavicle (RT) (LT) (Bil)
- Elbow (RT) (LT) (Bil)
- Eye for Foreign Body
- Facial Bones
- FB Child Nose to Rectum
- Femur (RT) (LT) (Bil)
- Finger (RT) (LT) (Bil)
Specify digit(s): _____
- Foot (RT) (LT) (Bil)
- Forearm (RT) (LT) (Bil)
- Hand (RT) (LT) (Bil)
- Hip
- Humerus (RT) (LT) (Bil)
- Infant Extremity
 - Upper (RT) (LT) (Bil)
 - Lower (RT) (LT) (Bil)
- Knee (RT) (LT) (Bil)
Specify view(s): _____
- Mandible
- Mandible Panoramic
- Nasal Bones
- Orbits
- Os Calcis (RT) (LT) (Bil)
- Paranasal Sinus
- Pelvis
- Ribs (RT) (LT) (Bil)
- Sacrum & Coccyx
- Scapula (RT) (LT) (Bil)
- Scoliosis Survey
- Shoulder (RT) (LT) (Bil)
- Skull
- Soft Tissue Neck
- Spine Cervical (AP/LAT) (Routine)
- Spine Thoracic (AP/LAT) (Routine)
- Spine Lumbar (AP/LAT) (Routine)
- Spine Flexion/Extension Only (Cervical) (Lumbar) (Thoracic)
- Sternum
- Tibia & Fibula Leg (RT) (LT) (Bil)
- Toe (RT) (LT) (Bil)
Specify digit(s): _____
- Wrist

BONE DENSITY

- Dexa (30 min)

CT SCANNING (30 min)

- Abdomen Prep B
- Abdomen/Pelvis Prep B
- Abd/Pel Kidney Stone
- Brain
- Cardiac Prep EE
- Chest
- CTA Abdomen/Pelvis Prep BB
- CTA Aortogram w/Runoff Prep BB
- CTA Chest
- CTA Coronary Arteries Prep EE
- CTA Extremity Upper
- CTA Head
- CTA Neck
- CTA Renal Prep BB
- IAC/Mastoids
- Extremity Lower (RT) (LT)
- Extremity Upper (RT) (LT)
- Facial Bones
- Orbits
- Pelvis
- Sinus
- Soft Tissue Neck
- Spine Cervical
- Spine Lumbar
- Spine Thoracic
- Other: _____
- Contrast as needed

MAMMOGRAPHY (Prep M, N)

- Screening Mammogram (15 min)
- Diagnostic Mammogram (20 min) (RT) (LT) (Bil) (Lump) (Pain) (Discharge)
- Screening Automated Whole Breast Ultrasound (30 min)
- Targeted Diagnostic Ultrasound (30 min) (RT) (LT) (Bil)

DIAGNOSTIC ULTRASOUND

- Abdomen Complete (60 min) Prep AA
- Abdomen Limited (specify) (30 min)
 - Ascites
 - Pyeloric Stenosis
 - Spleen
- Abdomen Limited – RUQ (30 min) Prep AA (includes GB/Pancreas/Liver/Rt Kidney)
- Abdomen Limited – Elastography (30 min) Prep AA
- Abdomen/Retro (complete w/iliac) (60 min) Prep AA
- Aorta/Retroperitoneal Limited (30 min) Prep AA
- Bladder Pre/Post Void (15 min) Prep G
- Extremity Complete (Whole Joint) (30 min)
- Extremity Limited (Lump, Hernia) (30 min)
- Infant Head (15 min)
- Infant Hips (2 wks-6 mo) (30 min)
- Infant Spine (15 min)
- OB Complete (>14 wks) (60 min) Prep G
- OB Limited (specify area of concern) (30 min) Prep G
- OB w/ Endo if needed (<14 wks) (60 min) Prep G
- Pelvis w/ Endo if needed (45 min) Prep G
- Prostate (30 min) Prep H
- Renal Complete w/ Bladder (30 min) Prep G
- Renal Transplant (30 min)
- Scrotal/Testicular (30 min)
- Spleen (15 min)
- Thyroid/Neck (30 min)

NUCLEAR MEDICINE

- Bone Limited Area (3 hrs) Prep X
Specify Location: _____
- Bone Three Phase (3 hrs) Prep X
Specify Location: _____
- Bone Whole Body (3 hrs) Prep X
- Bone Scan (Osteomyelitis) (2 day exam) Prep Y
Specify Location: _____
- Cisternogram Prep Z
- Gastric Empty (2.5 hrs) Prep C, W
- Hepatobiliary (2 hrs) Prep L
- Hepatobiliary w/ Kinevac (2 hrs) Prep L
- Liver/Spect (Hemangioma) (2 hrs)
- Liver/Spleen (60 min)
- Lung (VQ) Scan (60 min) Prep I
- Lymphoscintigraphy (4 hrs)
Specify Location: _____
- Muga (60 min)
- Myoview Stress (GTX) (3 hrs) Prep U
- Myoview Stress Adenosine (DAW) (3 hrs) Prep U
- Myoview Stress Dobutamine (3 hrs) Prep U
- Myoview Stress Persantine (3 hrs) Prep U
- Parathyroid (3 hrs) Prep X
- Renal Scan (60 min) Prep J
- Renal Scan w/ Lasix (90 min) Prep J, K
- Thyroid Scan & Uptake Prep V
- Thyroid Treatment (I131)
- Other: _____

NEURODIAGNOSTICS

- BAER, SSER, VER (30-45 min for each test) Prep O, S
- EEG (60-90 min) Prep O, P
- EEG Ambulatory (60 min) Prep O, Q
- EMG (30-45 min) Prep R
 - Upper (RT) (LT) (Bil)
 - Lower (RT) (LT) (Bil)

MRI (25-35 min)

- Orbital x-ray required for patient if ever exposed to metal fragments in the eyes.*
- Abdomen Prep A
 - Arthrograms
 - Hip (RT) (LT)
 - Shoulder (RT) (LT)
 - Wrist (RT) (LT)
 - Brain
 - Chest
 - Extremity Lower (RT) (LT)
Location: _____
 - Extremity Upper (RT) (LT)
Location: _____
 - IAC's
 - Joint Lower (RT) (LT)
Location: _____
 - Joint Upper (RT) (LT)
Location: _____
 - MRCP
 - Neck Soft Tissue
 - Orbits
 - Pelvis
 - Pituitary Gland
 - Spine Cervical
 - Spine Thoracic
 - Spine Lumbar
 - MRA Abdomen
 - MRA Brain
 - MRV Brain
 - MRA Carotids
 - MRA Chest
 - MRA Lower Extremity
 - Other: _____
 - Contrast as needed

VASCULAR

- Abdominal Duplex (60 min) Prep AA
- ABI Ankle Brachial Index
- Arterial Doppler Lower Extremity (90 min)
- Arterial Doppler Upper Extremity (90 min)
- Arterial Imaging Lower Extremity (45 min) (RT) (LT) (Bil)
- Arterial Imaging Upper Extremity (45 min) (RT) (LT) (Bil)
- Carotid Ultrasound (30 min)
- Renal Artery Doppler (90-120 min) Prep AA
- Vein Mapping (60 min)
- Venous Doppler Lower (30-60 min) (RT) (LT) (Bil)
- Venous Doppler Upper (45-90 min) (RT) (LT) (Bil)
- Other: _____

UROLOGY/FLUOROSCOPY

- Chest 4 Views w/wo Fluoro (30 min)
- Cystogram Non-Voiding (90 min)
- Cystogram Voiding (90 min)
- Esophagus (60 min)
- IVP (90 min) Prep E
- Modified Barium Swallow w/ Speech Therapy (30 min)
- Salivary Glands for Calculus (60 min)
- Small Bowel Only (up to 3 hrs) Prep C
- Upper GI Series (45 min) Prep C
- Upper GI w/ Small Bowel (up to 3 hrs) Prep C
- Other: _____

INTERVENTIONAL

- Angio (2 hrs) Prep D
Specify: _____
- Biopsy (60 min) Specify: _____
- Biopsy Thyroid (30 min)
- Dialysis Cath (60 min) (Perm) (Temp) (Replace)
- Discogram (60 min)
- Drainage Catheters (60 min)
- Lumbar Puncture (60 min)
Fax orders for specific labs on CSF to 989.583.6215
- Mediport (60 min)
- Myelogram (60 min) Prep D
 - Lumbar
 - Cervical
 - Complete
- Paracentesis (60 min)
- PICC Line (60 min)
- Thoracentesis (60 min)
- Vertebroplasty/Kyphoplasty (60 min)
- Other: _____

PREP AND EXAM INFORMATION

**Please advise your physician if you are pregnant or suspect you might be.
A pregnancy test may be necessary before scheduling the exam.**

- PREP A - Nothing to eat or drink 4 hours prior to the exam.
- PREP AA - Nothing to eat or drink 8 hours prior to the exam.
- PREP B - Nothing to eat 4 hours prior to exam. The patient may take any prescribed medications. An IV will be started. Patient must pick up a prep kit and it is to be taken as instructed. Prep kits are available at Covenant Cooper and Mackinaw campuses, and at MedExpress locations.
- PREP BB - Nothing to eat 4 hours prior to exam. The patient may take any prescribed medications. An IV will be started.
- PREP C - Nothing to eat or drink after 10 pm the night before the exam.
- PREP D - Nothing to eat or drink after 10pm the night before the exam.
- PREP E - Patient must pick up a prep kit. Prep to be started 24 hours prior to scheduled exam. For Barium Enema/Barium Enema w/ Air: Nothing to eat or drink 8 hours before scheduled appointment. Prep kits are available at Covenant Cooper and Mackinaw and at MedExpress locations.
- PREP EE - Patient will receive a call from CT department. Patient should receive medication instructions from physician. Patient is not to consume any caffeine for 12 hours prior to exam.
- PREP F - The patient cannot have had a gallbladder or kidney X-RAY WITH CONTRAST, or a CAT SCAN WITH CONTRAST within the last 6 weeks.
- PREP G - The patient MUST finish drinking 40 ounces of fluids one hour prior to the exam. A full bladder is needed for the exam, so it is important the patient DOES NOT URINATE AFTER DRINKING THE FLUID.
- PREP H - Patient is to have a Fleet's® enema 2 hours prior to the exam. For a prostate biopsy, do not use aspirin or blood thinning medications for 7 days prior to tile biopsy appointment. Your physician will order lab work and an antibiotic before your exam.
- PREP I - A chest x-ray is required within 24 hours of exam.
- PREP J - The patient MUST drink 80 ounces of fluids throughout the day prior to the exam.
- PREP K - The patient must not have taken any ACE inhibitors and/or ARB's for 72 hours prior to the exam. All other blood pressure medications should not be taken 12 hours before tl1e exam. No barium contrast within the last 24 hours.
- PREP L - Nothing to eat or drink, and no pain medications (or motility drugs) for 6 hours prior to the exam.
- PREP M - Shower or bathe to remove all perfume, powder, lotion or deodorant prior to the exam.
- PREP N - If prior x-rays or mammogram was done elsewhere, please bring films to this exam for comparison.
- PREP O - Patient will need to have clean hair with no hairsprays or oils in it.
- PREP P - For a sleep deprived EEG study, please follow instructions from your physician. EEG study may take longer if it is for a child or infant.
- PREP Q - Patient should wear a button-down shirt. Patient will be hooked up with wires and sent home with a recording device attached. If wearing the device for more than a day, patient will return daily to have the batteries and disk changed.
- PREP R - Patient should not have lotions or oils on their skin. Exam may take longer if all 4 extremities are being tested. A physician is required for this exam and the patient may have a short wait time before the exam is started.
- PREP S - For lower SER, please wear loose fitting pants that can be pulled up to the knees.
- PREP T - Please bring glasses if you have a VER ordered.
- PREP U - Nothing to eat or drink 4 hour prior to the exam. No caffeine 24 hours prior to the exam. Check with your physician about withholding current medications prior to the test.
- PREP V - Patient receives capsule during initial appointment. Patient returns approximately 4 hours later for uptake and scan that usually takes 45 minutes, and again the following morning for uptake. The second day requires approximately 10 minutes time. The patient cannot have had an exam with iodinated contrast (such as a CT exam) within the last 6 weeks. Thyroid medications (synthroid) should be stopped 3 weeks prior to the exam. Thyroid medications (PTU) should be stopped 72 hours prior to the exam. The imaging nurse will contact the patient prior to the exam with further exam directions.
- PREP W - No nicotine or motility drugs.
- PREP X - Patient receives injection at scheduled appointment time and returns approximately 3 hours later for scanning. Drinking liquids is encouraged.
- PREP Y - Blood is drawn at scheduled appointment time. Patient returns approximately 4 hours later to receive tag blood, and again the following morning for imaging.
- PREP Z - Patient receives lumbar puncture injection at scheduled appointment time and returns approximately 3 hours later for scanning. Patient may need to return for up to 3 consecutive days after the injection. Drinking liquids is encouraged.
