

Omnissa Windows Installation Instructions

Connecting to Your Virtual Desktop

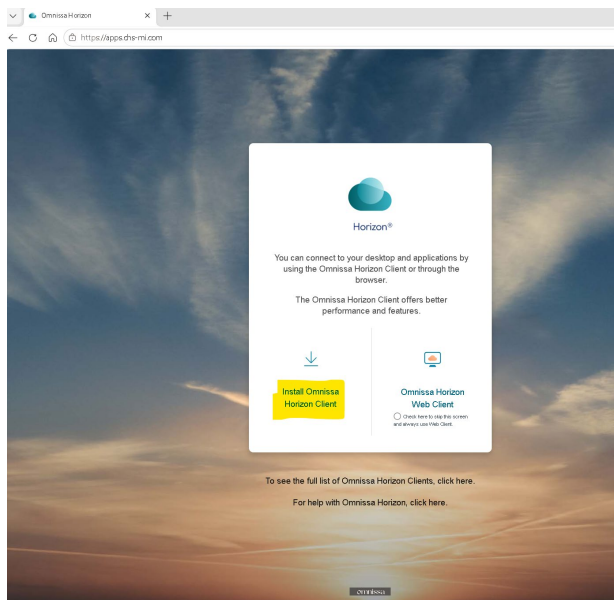

How to download, install, and sign in to the Omnissa Horizon Client

This guide walks you through downloading the Omnissa Horizon Client, installing it on your computer, and connecting to your virtual desktop or applications. Follow the section for your computer type — Windows or Mac.

What you'll need

- A computer running Windows or macOS, with a working internet connection.
- Covenant's Horizon server address: apps.chs-mi.com

Step 1. Go to [Apps.chs-mi.com](https://apps.chs-mi.com)

Click **Install Omnissa Horizon Client**.

Step 2. Download the installer

Click **Go To Downloads** for the client you are installing (most common will be Windows or Mac)

Step 4. Accept the defaults and install

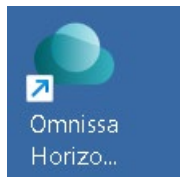

Click **Agree & Install (Or Agree and Upgrade)** and let the installer finish. You do not need to change any options. When it is completed, click **Finish**.

Step 5. Restart your computer

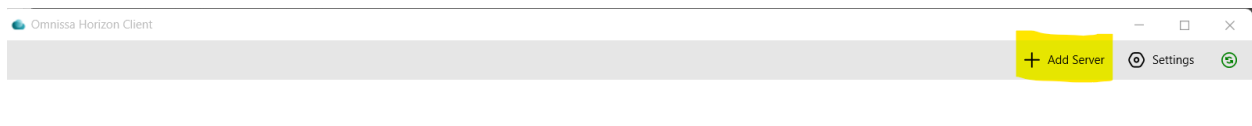

Step 6. Open the Horizon Client

After installing, open the **Omnissa Horizon Client** from your Desktop or the Start menu.

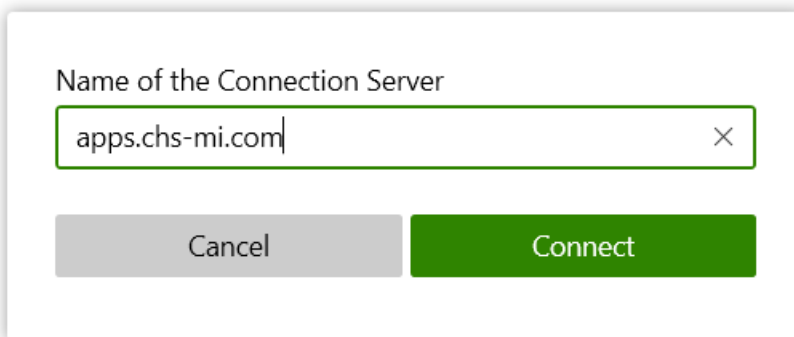

Step 7. Add your server

The first time you open the client, it asks for a server. Click **Add Server** (it may also read "New Server").

Step 8. Enter the server address and connect

Name of the Connection Server: **Apps.chs-mi.com**

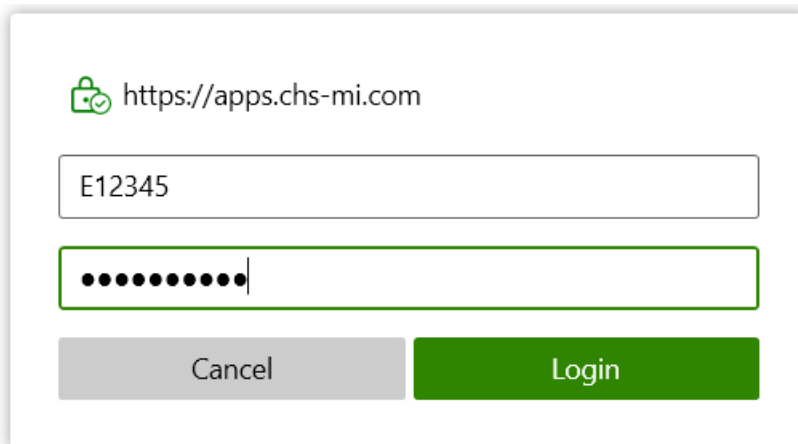

Name of the Connection Server
