

Blue Cross and BCN utilization management medical drug list

For Blue Cross commercial and BCN commercial

August 2025

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

This document outlines the utilization management programs that apply to select medical benefit drugs. These are drugs that require administration by a health care professional. The information on this list applies to:

- All members who have medical coverage under Blue Care Network commercial plans
- Members whose Blue Cross Blue Shield of Michigan commercial plans participate in the standard commercial Medical Drug Prior Authorization Program or are subject to other utilization management requirements related to medical benefit drugs.

For information about self-administered drugs that are covered under the pharmacy benefit for Blue Cross and BCN commercial members, see the [Pharmacy Resources for Providers](#) page at [bcbsm.com](#).

Medical Drug Prior Authorization (PA) Programs

These programs help ensure that patients receive medication that is medically necessary and appropriate for their situations.

For most medical benefit drugs	Submit prior authorization requests through the Medical and Pharmacy Drug PA Portal, which you can access by clicking the <i>Medical and Pharmacy Benefit Drug Prior Auth</i> tile in our provider portal (availability.com). This includes requests for gene and cellular therapy drugs, including Chimeric Antigen Receptor T-Cell (CAR-T) therapy.	
For select medical oncology and supportive care drugs	Submit prior authorization requests to OncoHealth through Blue Cross and BCN's provider portal, Availability Essentials. See the Oncology Value Management prior authorization list for Blue Cross and BCN commercial members for a comprehensive list of drugs managed by OncoHealth. To determine which self-funded groups have requirements under the Oncology Value Management program, see the self-funded group participation list .	
Site of care (SOC) program	Some drugs also have site-of-care requirements. Prior authorization requests for these drugs must indicate that they will be administered in a lower-cost site of care (such as the physician's office or the member's home), rather than a higher-cost site of care (such as a hospital outpatient facility).	
Employer-specific Medical Drug Prior Authorization Programs	UAW Retiree Medical Benefits Trust PPO (non-Medicare members): Medical Drug Management with Blue Cross for UAW Retiree Medical Benefits Trust PPO non-Medicare members Oncology Value Management program prior authorization list for UAW Retiree Medical Benefits Trust PPO non-Medicare members	Blue Cross and Blue Shield Federal Employee Program® (non-Medicare members): Utilization management medical drug list
Changes to medical necessity criteria for medical benefit drugs	When Blue Cross and BCN update medical policies due to recommendations from the Blue Cross Pharmacy and Therapeutics Committee, we'll update the Changes to medical necessity criteria for medical benefit drugs document to show the changes.

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

How to read this list

- **"Submit PA requests through" columns:** See the key below to learn how to determine whether a drug has PA or SOC requirements. When a cell is blank, the drug doesn't have PA or SOC requirements.

Key	PA requirements apply	PA and SOC requirements apply
Blue Cross commercial members	PPO	PPO-SOC
BCN commercial members	HMO	HMO-SOC

If "PPO" or "HMO" appears in the Medical and Pharmacy Drug PA column, submit prior authorization requests through the Medical and Pharmacy Drug PA Portal tool. If "PPO" or "HMO" appears in the OncoHealth column, submit prior authorization requests to Carelon Medical Benefits Management.

Note: Refer to the [Medical Policy Router Search](#) for complete medical drug policies and criteria.

- **"Quantity limits" columns:** A checkmark (✓) indicates that a drug has quantity limits. See the document titled [Blue Cross and BCN quantity limits for medical drugs](#) for the specific quantity limit. When a cell is blank, the drug doesn't have quantity limits.
- **"Preferred product information" column:** Lists any preferred products that a member must try and fail before receiving a drug. When a cell is blank, there is no preferred product information for that drug.

Note: Medical benefit drug policies are a source for Blue Cross and BCN medical policy information. Medical policies should not be used to determine benefits or reimbursement. Refer to the appropriate certificate or contract for benefit information. Medical policies are subject to change.
