

Medical Drug and Step Therapy Prior Authorization List for Medicare Plus BlueSM and BCN AdvantageSM members

Revised January 21, 2026

In this document

Drugs that require prior authorization 2
Revision history 45

This document lists the medical benefit drugs that have prior authorization or step therapy requirements for Medicare Advantage members. Here’s what these terms mean:

- **Prior authorization** – For the drugs listed in this document, approval is needed from the plan before the plan will cover the drug. This requirement helps ensure medication safety and helps guide the appropriate use of certain drugs.
- **Step therapy** – For certain drugs, members must first try another drug to treat a medical condition before the plan will cover the drug. Refer to the “Step therapy requirement” column to see whether a drug has a step therapy requirement.

For provider use

The “Submit authorization request through” columns in this table specify where to submit prior authorization requests for each drug:

- For most medical benefit drugs, including the CAR-T cell therapy drugs Abecma®, Breyanzi®, Carvykti™, Kymriah®, Tecartus®, Yescarta® and Aucatzyl®, submit prior authorization requests through the Medical and Pharmacy Drug PA Portal.
- For medical oncology and supportive care drugs, submit prior authorization requests to OncoHealth. For additional information, see the document [Oncology Value Management program through OncoHealth: Frequently asked questions for providers](#).

Note: If this list specifies that you should submit a prior authorization request to OncoHealth but you’re prescribing the drug for a **non**-oncology diagnosis, **don’t** submit the request to OncoHealth. Instead, call the Pharmacy Clinical Help Desk at 1-800-437-3803.

To view our medical policies for medical benefit drugs, see the [For Providers: How Do I Submit a Drug Prior Authorization Request for Medicare Plus Blue PPO and BCN Advantage?](#) page of our bcbsm.com/providers website.

See the revision history at the end of this document for information about changes to this list.
