

# Physician News Brief

NEWS ABOUT COVENANT HEALTHCARE FROM  
The Office of Physician Relations & Regional Outreach  
MAY 2, 2016

## Important Lab Contact Changes

Effective immediately, all lab related needs, questions and concerns are to be directed to your physician liaison or to Joel Taylor, Lab Business Administrator, at 989.583.6691. Thank you.

## Admission & Observation Order Update

A patient can only have one SINGLE admission order. If an inpatient admission order is already present on the patient's chart and you attempt to place another inpatient admission order, you will receive a hardstop and it will not allow you to sign the order. If the patient has an observation order and you attempt to place another observation order, you will also receive a hardstop and it will not allow you to sign the order.

If you need to update the attending provider, right-click on the patient's name from your Patient List and click "Assign Me". These changes will be effective on Tuesday, May 3, 2016. For questions, please contact EMR Support via vocera at 989.583.4500
