Vocera Alert Replacing Pagers

Effective June 18, 2018, both the Covenant Cardiology group and the Covenant Hospital Medicine group are using Vocera Alert for communication. The current pagers will be turned off and the new technology is the primary means of communication for these providers. Education has been provided to HUC's, nursing staff, and case management. If you do not have Vocera and you would like to contact a Hospitalist or Covenant Cardiologist, dial 583.0000 and ask the operator to contact the provider.

Feel free to contact Haley Hawes (Physician Practice Specialist), Jamie Furbush (Director of Inpatient Practices), or Diane Rath (Manager of Covenant Cardiology) with questions and feedback as we move forward with this exciting new initiative improving communication and efficiency.

For more information about Vocera Alert, please contact Tyler Lambert (Vocera Alert Project Administrator) at 583.0494 or TLambert@chs-mi.com. If you'd like to request access to Vocera Alert, please submit an IT Ticket through CovNet.

Welcome to Our Staff!

Indeevar Peram, MD, Hospital Medicine
Ruchi Bhavsar, MD, Internal Medicine
Vikas Bajpai, MD, Hospital Medicine
Megan Dutcher, DO, Emergency Medicine
